Ireland's Most Beautiful Train Route

Spectacular cliffs and traces of the Vikings can be found along Ireland's most beautiful train route. It leads from Rosslare in the southeast via the capital, Dublin, to the Howth Peninsula. In times gone by, the region has been

inhabited by Vikings, Normans and the English.

The scenery in the east of the Emerald Isle is picturesque: long beaches and solitary mountains. This was where the Vikings once landed. The Normans also left their mark. The region is also marked by its centuries-old history with England. In addition to the magnificent castles of the former colonial rulers, the ruins of an early Christian monastery and a prehistoric dolmen tomb bear witness to the diverse cultural influences here.

The camera team meets people who embody the modern nation while continuing to follow in the footsteps of their ancestors. A detour leads to the fertile hinterland of County Wexford and magical places in the Wicklow Mountains, before heading into the hustle and bustle of the city of Dublin. There's the opportunity for some rest and relaxation in the natural paradise near Howth, where a large colony of grey seals make their home.

The Blinding of Isaac Woodard

A PBS Documentary

In 1946, Isaac Woodard, a Black army sergeant on his way home to South Carolina after serving in WWII, was pulled from a bus for arguing with the driver. The local chief of police savagely beat him, leaving him unconscious and permanently blind. The shocking incident made national headlines and, when the police chief was acquitted by an all-white jury, the blatant injustice would change the course of American

history. Based on Richard Gergel's book *Unexampled Courage*, **THE BLINDING OF ISAAC WOODARD** details how the crime led to the racial awakening of President Harry Truman, who desegregated federal offices and the military two years later. The event also ultimately set the stage for the Supreme Court's landmark 1954 *Brown v. Board of Education* decision, which finally outlawed segregation in public schools and jumpstarted the modern civil rights movement.

What first seemed like a simple matter of evil gradually would give way to a complex assessment of the murderers' minds and a searing indictment of the forces that had shaped them, and set off a national debate about morality and capital punishment.
